

**Dartmouth Health Center for Advancing Rural Health Equity (CARHE)**

AHA Rural Health Care Leadership Conference – February 20, 2023

Discussion Guide

Learning Objectives

- Participants will be able to identify facilitators and barriers to rural health system-community partnerships.
- Participants will be able to develop strategies for engaging rural communities to develop partnerships with health systems.
- Participants will be able to apply successful practices to create a community-health system model for improving rural health equity.

Question	Presentation Notes	Possible Application
<b>Why</b> would your health system choose to begin or expand health equity work at this time?		
<b>Who</b> are your partners (or could be) in the work to improve health equity?		
<b>How</b> do you nurture partnerships across diverse organizations with different cultures?		
<b>What</b> practices promote strong health system-community partnerships in rural geographies?
